Early Life

Born on July 24, 1897 in , Kansas, Amelia Earhart was the first of two children born to Edwin and Amy Earhart. Amelia was an extremely adventurous child who loved to explore and enjoy the outdoors.

Love for Aviation

After seeing a plane fly overhead at an air show, Amelia knew she wanted to fly. Her parents discouraged her from flying, but she learned anyway. When she was 23 years old, she took her first flying lesson and became obsessed. She was determined to become a pilot. About a year later, she had saved up enough money to buy her first aircraft.

Trailblazer for Women

Earhart did many amazing things that no other woman had ever done before! She broke many records and attempted to fly for lengths of time that had never been accomplished before by women pilots. Earhart wanted more women to do what she was doing. She also wanted to make flying a more popular way for people to travel. Though she had many successful flights, unfortunately, on Earhart's last flight in 1937, her plane disappeared and she was not heard of again.

Lesson Introduction (5-10 min.)

- Introduce the essential questions.
- Introduce the person(s) your students will be exploring and provide each student with a **KWL student sheet**.
- **ASK:** What do you know about this person? What do you want to know about this person?
